ENVIRONMENTAL CONSULTANTS. An annual "Directory of Environmental Consultants" will be published beginning in 1972. Environmentally concerned professionals interested in having their name and short resume appear in the Directory should send a No. 10. self-addressed, stamped envelope to: Directory of Environmental Consultants, P.O. Box 8002, University Station, St. Louis, MO 73108.

INTERNATIONAL CONFERENCE. "Without Boundaries," an international conference on outdoor education, will be held September 28-30, 1972, in the North Haliburton Highlands between Doreset and Minden, Ontario, under the sponsorship of the Council of Outdoor Educators of Ontario, 229 College St., Toronto 130, Ontario.

Reader's Write

The title of Linda Simon's article in the winter 1971 issue should be "Books on Ecology for Juveniles" rather than "Juvenile Books on Ecology."— DONALD J. ZINN, Professor of Zoology, University of Rhode Island, Kingston.

•

We find EE to be too elementary, or not professionally advanced enough, for our use.— J.S., Chemistry Department, Reed College.

•

You have not failed in EE. I feel it is an excellent resource for school libraries.— LUDWIG PETERSON, Coordinator, Cooperative School Area No. 3, Gillett, Wisconsin.

•

Many thanks for a wonderful journal. Keep up the great work.— HAROLD J. McKENNA, professor, School of Education, City College of New York.

I find your Journal both enjoying and stimulating.— THOMAS M. BAUGH, St. Anthony, Idaho.

•

While looking at your picture on the inside of the back cover of EE, I note that you are holding a pipe....We hear so much about stopping pollution, but it will never be stopped until people are willing to give up some of their own pleasures because of the wants of their neighbors. To be good teachers we must live by the principles which we teach.— BRENT COATS, Salt Lake City, Utah.

EDITOR'S NOTE: The sketch is out-of-date. The editor has been a non-pipe smoker for some time. Also, his hair is now longer.

•

Your Journal has filled a great gap. I trust EE will continue to grow.— DOUGLAS C. HARR, Monticello, Minnesota.
